

東港海事教職員校務行政系統密碼忘記補救辦法

步驟一、

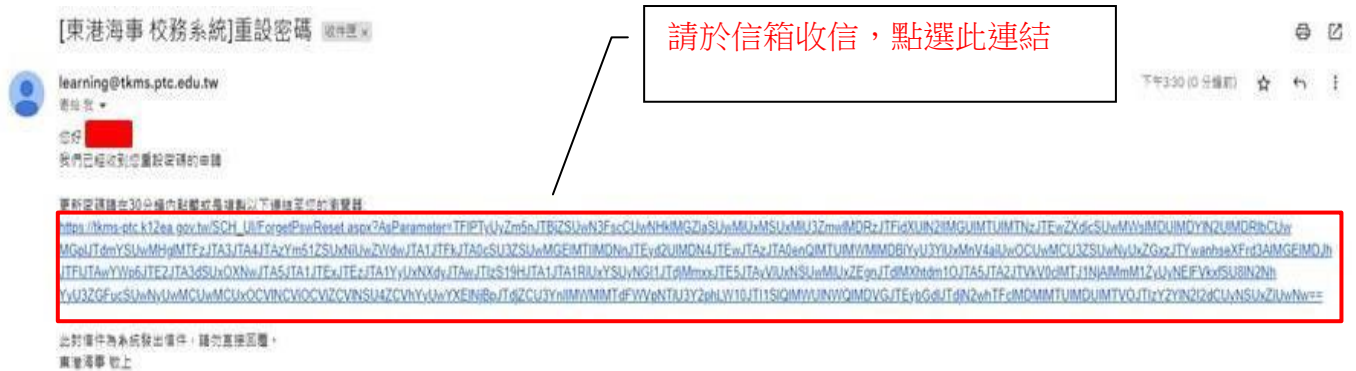

The login page features a header with the text '登入' (Login) and a user icon. Below this is a large box containing the title '登入' (Login). Inside this box are two input fields: '帳號' (Account) and '密碼' (Password), followed by a blue '登入' (Login) button. At the bottom of the box is a blue button labeled '忘記密碼' (Forgot Password), which is highlighted with a red rectangle.

步驟二、

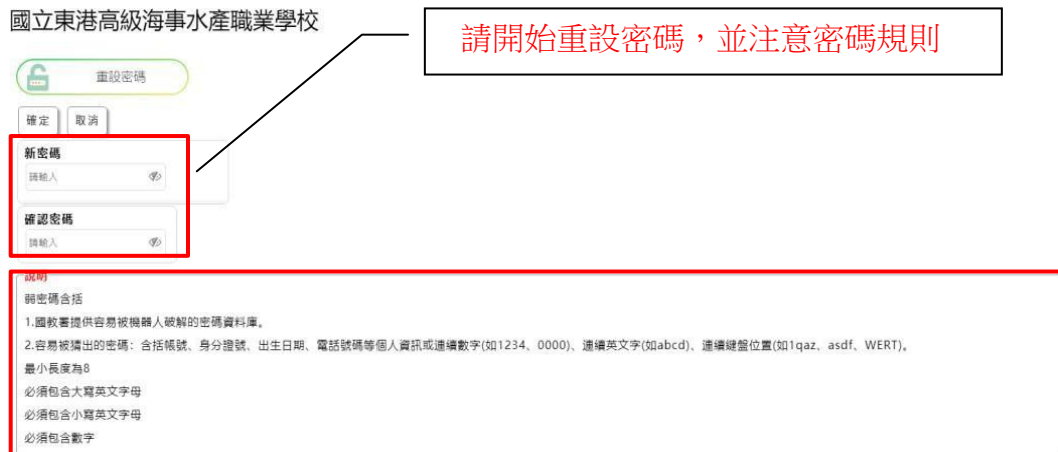

This page is titled '忘記密碼' (Forgot Password) with a lock icon. It has two buttons: '確認送出' (Confirm Send) and '取消' (Cancel). Below these is an input field for '帳號' (Account) with the placeholder text '請輸入' (Please enter). A red box highlights the '確認送出' button and the account input field. A blue box with the text '請輸入帳號' (Please enter account) points to the input field. At the bottom, a text prompt reads: '請輸入你的帳號，並由校務系統紀錄的mail Address接收訊息' (Please enter your account, and receive the message via the mail address recorded in the school system).

步驟三、

The email is from 'learning@tkms.ptc.edu.tw' with the subject '[東港海事 校務系統]重設密碼' (Keelung Maritime School System Password Reset). The body contains a message in Chinese and a long URL for password reset. A red box highlights the URL, and a text box with the instruction '請於信箱收信，點選此連結' (Please check your mailbox and click this link) points to the URL. The email footer includes the school name '國立東港高級海事水產職業學校' and the date '109年3月30日'.

步驟四、

The page is titled '重設密碼' (Reset Password) with a lock icon. It has two buttons: '確定' (Confirm) and '取消' (Cancel). Below these are two input fields: '新密碼' (New Password) and '確認密碼' (Confirm Password), both with placeholder text '請輸入' (Please enter). A red box highlights these two input fields. A text box with the instruction '請開始重設密碼，並注意密碼規則' (Please start resetting the password and pay attention to the password rules) points to the input fields. At the bottom, a red box contains the password rules: '說明' (Note), '密碼包含' (Password includes), '1. 國教署提供容易破譯的密碼資料庫。' (The Ministry of Education provides a database of easily crackable passwords.), '2. 容易破譯出的密碼：含括帳號、身分證號、出生日期、電話號碼等個人資訊或連續數字(如1234, 0000)、連續英文字(如abcd)、連續鍵盤位置(如1qaz, asdf, WERT)。' (Easily crackable passwords: including account numbers, ID card numbers, birth dates, phone numbers, etc. personal information or continuous numbers (e.g., 1234, 0000), continuous English letters (e.g., abcd), continuous keyboard positions (e.g., 1qaz, asdf, WERT)).', '最小長度為8' (Minimum length is 8), '必須包含大寫英文字母' (Must contain uppercase English letters), '必須包含小寫英文字母' (Must contain lowercase English letters), and '必須包含數字' (Must contain numbers).
